## 2020 „Vom Schiefer“

Riesling Niederhausen VDP.ORTSWEIN

Our Riesling "Vom Schiefer" is a real character wine. Its grapes originate 100% from our top quality location called "Niederhäuser Hermannsberg". Only a stone's throw away from the copper mine, this whole new "Riesling world" reveals itself. Our so called "Vom Schiefer" presents itself with a diverse complexity of aromas and multilayered flavors in the nose. On the palate, a certain spiciness and minty freshness can be perceived that go hand in hand with a rich and full flavor but without any heaviness in taste. Finally, it convinces through its long and well balanced finish. With its clear structure, our "Vom Schiefer" cuts a fine figure not only as a dining companion, but also as a mature wine.

**As a meal companion it calls after subtly spiced dishes. We prefer to drink it with whole-cooked poulard with seasonal vegetables.**

**Origin:** The grounds of the south-facing "Hermannsberg" mountain are shaped by the Ice Age, with clay slate in the subsoil, overgrown by loess. Melaphyre was brought into the vineyard over 100 years ago by the mining industry. These grounds provide fertile soil for grapes that give rise to distinctive wines with very complex aromas. Their characteristics protrude less with superficial stimuli but with their elegance and confidence with which they scintillate uniquely in their time.
